SmartJudge

Free AI assessment · England and Wales

A free starting point for your finances

Your mediator has suggested you try SmartJudge.ai before your first session. It is free, and it will give you a realistic sense of how a court might divide your money and property so the two of you can start the conversation with realistic expectations.

What SmartJudge does

SmartJudge asks straightforward questions about your home, income, pensions, savings and children, then writes a plain-English report on how a court in England and Wales would be likely to approach dividing your finances. It applies the same Section 25 factors a judge uses. It cites real, solicitor-reviewed case law. The same framework for both of you, applied to whatever each of you enters. See an example report.

WHAT YOUR REPORT LOOKS LIKE — Illustrative example - not your figures

You 60% — Your spouse 40%

Estimated range 55/45 to 65/35, with the reasoning, the factors that moved it, and the case law behind it.

How to start

1. **Go to** smartjudge.ai on your phone or computer.
2. **Create an account.** Sign in with Google, Apple or Facebook, or use an email address and password. You do not need to give your name, and if you prefer to stay anonymous you can use a made-up email address - just keep the login somewhere safe.
3. **Answer the questions** at your own pace. Your progress saves automatically, there is help beside every question, and estimates are fine where you do not have an exact figure. You can come back and update anything later.
4. **Read your report.** Download it, email it to yourself, or share it with your mediator if you choose to. It is yours to keep.

Good to know

Free
No card details, no obligation. Paid reviews by a solicitor, barrister or judge exist, at published fixed prices, but they are entirely optional.

Private
Your information is encrypted and is never shared with your spouse or anyone else without your agreement. You can delete everything at any time.

Works well on mobile or desktop
It auto saves your progress, you can easily share or update your information and it has chatbot and traditional help for each question.

Educational guidance, not legal advice
A SmartJudge report is not a prediction of what a court will do and does not replace a solicitor. It is a well-informed starting point.

Does not replace mediation
The conversation, the compromise and the agreement are still yours to reach, with your mediator's help.

Latest case law
AI report stays up to date with the latest case law licensed from the National Archives.
